

# Multinational chemicals giant INEOS are planning to frack near your home.

Frack Free United, Friends of the Earth and Eckington Against Fracking present an information event with Food & Water Watch Europe:

## INEOS, FRACKING AND YOU

### ECKINGTON - MONDAY 12th FEBRUARY

Cricket club, Staveley Lane, Eckington, S21 3WB

Petrochemicals giant INEOS have been given permission by Chatsworth to conduct a seismic survey on its Scarcliffe and Staveley estates, and Derbyshire County Council are considering their repeated application for permission to explore shale gas reserves near Eckington, with the intention of developing a fracking industry on your doorstep.

Our featured speaker is Andy Gheorghiu, a leading researcher and campaigner on INEOS. Andy contributed to Food and Water Watch Europe's reports on the company's corporate profile and environmental track record, and is visiting the UK on a speaking tour of North and East Yorkshire, and Eckington.

**Please come along to this public information event to find out more, and encourage your neighbours and friends to attend too. You can also do your own research by Googling "fracking problems", "fracking and health", and "INEOS safety record".**
